PRESS RELEASE

IMMEDIATE RELEASE

PAC RACING AND JOHN BOJEC RACING TEAM UP FOR THE 2009 NHRA DRAG RACING SEASON

Mar. 2, 09/SOUTHFIELD, MI – PAC Racing, a division of Peterson American Company, is pleased to announce a 2009 sponsorship agreement with John Bojec Racing, of Chardon, Ohio. This season will bring PAC Racing to the forefront of NHRA drag racing, through this partnership of talent, skill and drive.

Competing in his 7th year of Funny Car, John Bojec has built his race organization into a championship caliber team. Now, together with PAC Racing, this joint team will apply all of its collective talent, skill and experience, in pursuit of the national championship. The PAC Racing Top Alcohol Funny Car entry will be traveling throughout the USA, representing the Northeast Division of NHRA drag racing. At each attended event, The PAC Racing team will be present, offering technical support to our customer base, as has been done in the past. Additionally, and new for this year, the PAC team will be carrying a full stock of available racing springs, PACALOY™ valve retainers, titanium valve retainers, chrome moly steel valve retainers, throttle springs, calibration springs, checking springs and other related racing products.

PAC Racing is a division of Peterson American Company. Headquartered in Southfield, Michigan, PAC Racing is the world's premier valve spring manufacturer. NASCAR, NHRA, F1, Rally and Sprint cars to everyday street performance engines use PAC Racing products to provide unsurpassed performance in all forms of motorsports. Innovative designs produced by skilled spring makers from the highest quality materials ensure the highest performing springs available. Peterson Spring, a Peterson American Company, has been at the forefront of the automotive spring and wire form industry since its creation in 1914. Founded in 1932, Peterson Spring is a charter member of the Spring Manufacturers Institute (SMI). Peterson Spring is the largest independent manufacturer in North America, and employs over 750 employees in 15 locations worldwide. Peterson Spring has full capability in all types of springs, wire forms and four slide stampings. For more information on PAC Racing, please visit www.racingsprings.com.
